

About the Society

AMDA – The Society for Post-Acute and Long-Term Care Medicine is the only medical specialty society representing the community of over 50,000 medical directors, physicians, nurse practitioners, physician assistants, and other practitioners in the post-acute and long-term care continuum. We advance our mission through timely professional development, evidence-based clinical guidance, and tireless advocacy on behalf of our members, patients, families, and staff.

Join Your Professional Family at PALTC23

There's still time to register for PALTC23, AMDA's Annual Conference being held in Tampa, FL, March 9-12. Don't miss the opportunity to join your AMDA family for education and networking. Get additional information and register here: <https://www.eventscribe.net/2023/PALTC23/index.asp?launcher=1>.

Listen to a Podcast

AMDA's podcasts let you listen to a variety of post-acute and long-term care topics from your office, home, or car. Choose from AMDA On-The-Go, AMDA On-The-Hill, JAMDA On-The-Go, Caring On-The-Go, the Geriatric Journal Club, and AMDA In-The-States. Download an episode today: <https://paltc.org/podcast>.

Do You Have Suggestions for a Webinar?

The Society provides live webinars throughout the year for all those practicing in the post-acute and long-term care medicine continuum. Top experts present relevant topics, while participants can earn continuing education credits from their home or office. Visit the website for the latest details: <https://apex.paltc.org/page/live-webinars>. Episodes are being scheduled for this year, so send an email to education@paltc.org if you have suggestions for future topics. Archived episodes are available at <https://apex.paltc.org/page/archived-webinars>.

Core Curriculum on Medical Direction in PALTC

The Society's Core Curriculum on Medical Direction in Post-Acute and Long-Term Care is only training program of its kind, offering comprehensive instruction on management and leadership skills to help medical directors solve everyday challenges they face at their facilities. There are two parts:

1. **Online Core Curriculum:** On-demand presentations and assessments that participants can view on-line, covering the 22 critical areas impacting PALTC leadership and management.
2. **Core Synthesis:** A weekend program comprised of dynamic lectures, interactive role plays, case-based discussion, and small group breakouts. It is being offered twice this year: July 21-23 in San Antonio, TX, and December 1-3 virtually.

A California bill will require all nursing home medical directors in the state to be certified within 5 years; other states may follow suit. The Core is a great way to start the journey toward certification. Go to <https://apex.paltc.org/page/core-curriculum-on-medical-direction> for more information.
